Local food – we hope our suggestions about regional food and restaurant were useful.

How much local food you consume during the bike trip?

114 risposte

How helpful were our recommendation for local restaurant?

113 risposte

What is the most delicious meal you taste during the trip?

92 risposte

La Terrazza del Chiostro

Carbonara in Alberobello

I can't remember the name of the restaurant

All of them! Fabulous recommendations. Il Chiostro in Pienza was overpriced.

All the meals were so good. I can't answer only one

Chef Paulo cooking lesson

Da Salvatore in Oristano

Second cooking class

Asciento

We enjoyed two dinners at Daniela's in San Casciano dei Bagni. We also enjoyed the dinner at Altarocca Wine Resort.

Sea Bass by Paulo

Everything was delicious! Especially loved the Pizza night!

Montepulchiano dinner and Chef Paulo

Wild boar ragu in Penza.

Last one in sienna

Pienza meals- La bandita and the pizza place right by the front gate

San Angelo In Colle, Trattorio l'Il Pozo

Il Chiostro di Pienza

All restaurants and the 2nd cooking lesson meal

Everything that Pao cooked

Cacio e Pepe

Dinner in Ravenna at our own choice of restaurant

Fanti

All of our meals were wonderful, I have multiple food allergies and everyone was so helpful in making sure I had safe and delicious food.

Montepulciano restaurabt by the gate which was your recommendation

Castello do Spaltenna

Pecorino pasta wheel and pici ragu

Pablo's dinner and el Coderre. Yolanda's antipasto veggies and tiramisu were absolutely delicious.

La Bandita

La Bandita, porcini mushroom pasta

Lunch Brunello

All meals prepared for us were delicious but the wild boar and the pick was impeccable

Pasta with truffle

Dinner at Ostuni, both Food & Terrace where delicious.

All of them! I loved every restaurant and Paulo was amazing

Thursday night's dinner

Our restaurant meal in Alghero

breakfasts were my favorite with all the fruit

Grilled lamb and pork in Pienza

Da Falco, La Bandita and La Certosa

Everything was delicious! Especially loved the food we cooked and the pizza party!

Honestly, all were delicious!

Hard question...they were all great. The first night was special with the olive oil and cure meats and cheeses tasting.

melograno

In Pienza pasta

Our dinner in Donnalucata

Pizza and pasta evenings at the guest house

B and B maybe an hotel. our 2nd location Family style . There was a ricotta demo at the place we stayed. was a

Lasagna

Lunch in montepacino. A stew of chickpeas with bacon and croutons on top

Chef Paulo's baked pears

provided by Paolo at cooking class

All meals

Chef Paolo's eggplant parmesean. But, in all honesty, it was ALL good! Thank you!!!

Trattoria Da Mirka, Alghero

wild boar at 13 Gobbi and the tasting at Fanti

Everything that Paolo and Piero made was fantastic. The salted caramel dessert at the restaurant in Pienza was exceptional.

Davvanna in Modica

Montepulciano and Chef Paolo

Wild boar

Gelato was the best.

vegetarian lasagna, zucchini flan prepared by Paulo!

Crepe

The homemade ravioli we made and the first lunch soup.

Re di macchia Montalcino

Our dinner in Pienza at one of your recommended restaurants or one of our dinners at the Belvedere San Leonino Hotel.

Meals prepared by Paolo

They were all great but I think the fish meal we cooked with Chef Paulo was the best!

I greatly enjoyed all of the restaurants your group picked for our tour. Too many to choose a favorite.

DaMa restaurant at Villa D'Amelia

Montalcino recommendation

Paulo's meals

Too long ago to remember

meal in the White City

Gnocchi

Bruschetta promodo

local restaurant in San Casciano

There were so many, it's difficult to decide

Everything was so wonderful. But the poached pear was Devine.

All the meals at the hotel were delicious.

Salads

Zucchini panna cotta and bolognese ragu

All of it

The farewell dinner on our last night together was amazing!

Castello Di Spaltella

Scansano, Il Carraio, all local beet root spaghetti, wonderful. Chef Gaia is an inspired chef

First hotel, Alghero

Casio and Pepe in small village that I can't remember the name of

We had a wonderful meal in Siena at a restaurant we found by chance called La Sosta Di Violante . Amazing steak the best we've ever had!!

Ravioli, tiramisu on the farm

This is impossible to answer- EVERYTHING was incredible!! But I must say, the pear dessert created by our chef was perfection!!

Do not have a favorite I.

A good night's sleep is crucial after a day of cycling. Please share your experience regarding the sleeping conditions at the hotels during your tour.

Consider Bed Comfort, Noise Levels, Lighting, Temperature, Bedding

Sleep can be influenced by other factors such as stress, or jet lag, so feel free to share comments positive or not!

101 risposte

Most beds were comfortable. The pillows were very different from what I'm used to. I never adjusted.

Excellent accommodation

Excellent beds and very quiet!

Excellent

All were fine for me. I can sleep easily. The first hotel could have been more accommodating. They usually said "no" to most questions. Food was expensive and times were inconvenient. We asked about any local supermarkets and they said there were none. But on a walk, we found a market with such kind people.

Bedrooms were acceptable but sometimes stuffy; we were glad for the air conditioning!

All of our accomodations were excellent. Especially our last two days at the hotel and spa.

The bed and comfort in our suite was perfect

Excellent beds and atmosphere

We thought all the beds and pillows were very comfortable. One of the throw pillows in Santa Lussurgio had a bit of mildew which activated my allergies but once we set that aside the pillow underneath was fine.

All good except last 2 nights. Water leak, no glasses in room, treacherous access,

Bed a little too soft but otherwise all good

All the hotels were great! We especially liked la Bandita Townhouse.

All good

Rooms were very comfortable , clean and quiet

Bed very comfortable. Towels and sheets need only be changed once per week.

All of the hotels selected were good, but the best sleeps were in Pienza, Siena, and Castellina in Chianti.

A Band was practicing in Pienza after 10pm which made sleeping challenging

Sleeping conditions were great!

Rooms were nice and cool. Therefore we slept well. Pillows in Pienza too thin for Frank

No problems sleeping at the great hotels included

The first and the last locations beds were great. The second was not very comfortable. I also noticed the hotels were very dry and I developed an irritated throat, it has resolved since returning home. This could have just been because it was a new environment.

Great!

Perfect accommodation

Loved the accommodations

All good.

La Pieve was wonderfully peaceful and relaxing. Our only minor complaints were that the mattress was a little thin and we would have enjoyed a coffee setup in our room.

Our room was perfect. Access to fresh air, and all the amenities we needed

Good always easier after a day cycling! Beds were good too.

Awesome, perfect

Everything was perfect

Beds were comfortable, no noise, temperature and bedding were excellent. Slept well.

Our Siena hotel did not have good A/C

The room was wonderful!

Slept well, bed comfortable and it was lovely and quiet

Beds were very comfortable. Opening windows along with the fan were enough to sleep comfortably

Excellent sleep conditions but mattress was too hard

Every night we have excellent choices. Since most of the hotels were located in Old Town, in the morning, trash collection is noisy, but is worth it for the location.

very good

I slept great!

The hotel and beds were great

All good

sleep was good

bedding was great at all hotels.

The accommodation in Gaiole was the best for sleeping conditions

Fantastic! We like the hotels in Pienza and Siena

Rooms were very comfortable, clean and quiet

I slept very very well. So, all conditions-factors were perfect.

I loved our room and the accommodations. There was a sag in the mattress, that led to a little back pain that we didn't have in other hotels/apartments we stayed at during our trip in Italy.

All hotels were good

Bedrooms / accommodations were all excellent

Wonderful

a good night sleep crucial after a Bike day of biking and festivities.

Every hotel was perfect in every way

Hotels were great quality and staff was always helpful. Comfy beds and very thankful they all had A/C.

perfect, loved that I could sleep with the window open

excellent accommodations

Excellent!

No issues at all. Palazzo Massaini was PERFECT! Please don't change this option!

The sleeping arrangements were generally good, quiet and comfortable. The sole exception was the room Sophia at the Hotel d'Arborea in Oristano which was pretty but wholly impractical. Happily, our host organised a change of room after the first night.

loved the room but too hot, no air conditioning

Good beds and temperature

Other than our air conditioning not working everything at the hotel was excellent. Comfortable beds, quiet rooms, well furnished with water each day. Only recommendation would be to have a small bar fridge to cool drinks and fruit needed for cycling.

Jet lag definitely an issue but all hotels were great

no problems

Perfect. Excellent accommodation

The accommodation was amazing. This is not our first trip with Cicloposse and each time we have had the best of the best

Excellent - we slept perfectly! Lovely accomodations at Palazzo Massainiations at Palazzo

All great

The accomodations were excellent on all levels.

Slept like a baby at each hotel

The hotels were all very nice. There were a few hotels where the A/C didn't work as well in the hot weather, and we were a little warm at night. Also, a few of the rooms had a lot of ambient lighting from the different devices in the room that were distracting for sleep. Overall, though, the accommodations were very nice and the locations were great.

Very comfortable stay

Whikle the accommodations were beautiful, the bed was very uncoomfortable-worst part of an otherwise great trip!

I thought your hotel choices were very good.

Excellent at all hotels. Rooms were clean and Beds were comfortable, temperature was just right, etc.

Beds were great as was the quality of the linen

All the hotels were of a great confort and absolutely perfect. Kind reception, helpfull, ...

Very comfortable

Slept very well.

fantastic bed!!!! Easy to adjust temps

Some mattresses in some of the hotels were very hard and not comfortable at all. I know this is difficult to control.

Quiet, clean beds, good pillows, good air conditioning

All hotels were fantastic.

they were very good

It was a very comfortable place

The sleeping conditions were excellent at every level

I found all sleep conditions to be satisfactory, beds were rightly comfortable and room temperature was adjustable if needed.

Hotel at Torre Grande was next to a Beach Nightclub with very loud music till midnight and the hotel in Gergei did not allow water in the room and the room was hot during sleep

The bed was comfortable, but was not a queen or king size it was two twins put together with a seam in the middle and they were a different heights so that part of the bed was not comfortable. The air conditioner kept the room, mostly cool, but had to keep being turned on to keep it at a constant temperature. Noise and lighting were fine as were linens on the bed.

Bed's comfortable Room great

Excellent- loved staying 4 nights at our first location with the charming casitas and the cooking school. Beds were comfortable, small property was quiet and private. The hotel I. lecce was a typical hotel but certainly adequate and comfortable.

Some beautiful selections, all great service. However, only Pienza was acceptably accommodating for 2 single people.

All hotels were excellent choices

One night the noise level prevented sleep. This could not be controlled by your staff, not their fault. The last two nights the bed was too soft to allow good sleep

Excellent

Slept well throughout although the room at the first hotel in Pienza was small.

Beds good, not great. Pillows could be improved

My sleep was magnificent!

The accommodations were very comfortable.

1 altra risposta è nascosta

Any suggestion to improve the overall experience?

92 risposte

None

It was perfect

Staying two nights in one place was a nice break in the trip.

More communication on which type of bikes to use. Surprisingly a few rides lower Tuscany were bad. Francine was a racing bike with 25 mm tires !

The tour was amazing and we had an excellent time. All the hotels were outstanding and exceeded our expectations with the exception of Giovi relais in Polignano. The service at all the other hotels was so good but this one was lacking. The only other thing to mention is that the bike sizes were not as requested. I requested a 56cm bike for my wife who is quite tall (5'11") but she received a small. I ended up trading her for my medium. It ended up working but getting our requested sizes would have been better. The last thing to note was that the ride gps locations took us to hotels that were not the current hotels. So a few of the times we had to then navigate to the new hotel. Updating the ride gps with current hotel would be helpful. But honestly, the trip was incredible.

The team is so awesome. I prefer earlier dinners but I understand this is Europe. Days are long so maybe a bit earlier to return to hotel before dinner.

The lunch recommendation for Ville de corsano were not realistic (nothing was actually open for lunch when we arrived)

All went very well, the team was very responsive and helpfull.

Not from me 😊

the one bike we rented was too small a frame, slightly

We actually enjoyed the rural riding rather than the premier tourist destinations such as Assisi

Some of the instructions on the Ride with GPS app were wrong. It had left and right backwards a few time. Also it would be helpful to know that the GPS directions don't always end at hotel accommodations. (IE Bosa)

Would be clearer on degree of significant length and degree of climbs.

We had a fantastic experience!

I was last biker often, and often followed by SAG van. Would suggest your SAG Van be changed to your e-van as when SAG Van would accelerate and pass me, there was often a bit of exhaust expelled near me. Only suggestion i have as overall all was excellent!

No suggestions

A rear carrier (one of the two bikes we used had a carrier) and panniers to carry jackets and accessories would have been useful.

better nav app

We would have appreciated a bit more guidance on how to get to our hotel and store our bikes in Montalcino and Siena- perhaps in our Monday trip bikefitting we could have gone over instructions.

Hotel Vecchio should consider having kettle in room for coffee or tea

Not a big deal, but it would have been nice to have some more pictures of us on the bikes.

No, it was excellent!

Perhaps have links to historical information about all the towns we visited

Instant coffee in the room

Inform future participants that the level skill level required is moderate and requires moderate exertion.

YES! The hotel in Imola was a nightmare. Automatic check-in didn't work, remote receptionist unhelpful. We were stuck outside in terrible heat for about 45 minutes trying to make the system work.

Our breakfast room was very acoustically shiny, which made our cooking classes very loud. It was sometimes difficult to hear Chef Paolo during the classes. I recommend the Palazzo install simple sound absorbing panels to reduce the noise in the room. For example:
<https://youtu.be/Mb4wYnUgl34?si=vqIEe0yHfCvG6WKd>

None

Lighter E bike. Trek e bikes very good.

Please move the towns to the valleys 🤔🤔. Honestly we had a wonderful experience and will highly recommend cicloposse

During warmer months, would be better to eat earlier to avoid heat of day.

Perhaps provide a hotel upgrade option for Siena?

Always make sure bike tires are filled, pumps and other equipment work and earlier breakfast times if the weather will be very hot.

No changes suggested.

It was all great!

No every day was better than the day before

We really appreciate the whole experience and we will recommend to friends

Always prioritize routes that avoid sharing the roads with traffic whenever possible.

Make it clear the cycling is NOT beginner so individuals are better prepared

I think it would be nice to offer a day during the week where there is an option to be dropped off in Siena for the day instead of bike riding. We were sad we didn't get to go there although we loved every place we went! Having an optional day off the bike might be nice :)

My only suggestion would be to have more food available between scheduled meal times. The location of the villa was such that if you wanted anything to eat, even just a snack, outside of programmed meals there was nothing.

No

the trip was great, thank you for all your help. What I was very surprised about is how infrequently we could find food/water stops on the ride. We ran short on water several days. I thought Italy would have a lot of cafes to go to on these rides or to buy water, but that was not the case.

We were very happy with the overall experience. Single or double panniers for the bike would have been preferred.

None, amazing trip!

I have no suggestions. It was truly fabulous.

Everything was perfect and the team made sure the experience exceeded our expectations. I loved the little surprises along the way...the olive oil gift at the end, the wine included with our dinner in Pienza, meeting Guiliana and Marcus at the Pizza Party.

As it was hot, we had to leave before breakfast, as they were served too late. A breakfast box to go would be good.

None

The guides were exceptional. Everything was perfect. My least favorite hotel was the last we stayed in two nights and that pills I found the breakfast unsatisfactory and the bed is not very comfortable as well as a lot of I should say too much decoration.

The only downside were the drivers. We felt unsafe because of them.

The guidebook was very helpful. But it would have been super helpful to have the highlights marked in the Ride with GPS app. There were several times we were looking for the castle or site and had passed it without realizing.

Maybe an option to walk to Sienna from a drop off point and spend the day there. Maybe there are other people like me who don't cycle and might like a walking/shopping option. The information I had said 5th day we would ride to Sienna. However, the entire trip exceeded my expectations! Thank you

the trip is not for beginners or those not in good physical health. Personally I found it ok however, most would find certain hills too difficult to navigate

As is was perfect

None. This was perfection!

Overall, the experience was excellent. One minor point, the ebikes had kickstands but the hybrid bikes did not, and really should have done.

music for pizza party! We loved everything!!

The trip was listed as "Beginner & Intermediate" however, it was much more than any beginner could complete. Suggest the marketing of this trip be reviewed and updated to reflect the actual bike skill level and fitness level required.

Entire trip was excellent

none. great experience

Nothing I can think of

Absolutely none.

The hotels that do not have coffee prior to breakfast time was really inconvenient for those who wanted to leave prior to 7 AM to beat the heat.

1. All participants and chef Paulo should wash their hands before cooking! 2. The night at the restaurant where wild boar was served, the vegetarian meal was a plate of cheese. That was rough. Maybe work with them to come up with a better option for your non-meat eaters. We loved Panos and Enrique - they were terrific and made the experience so enjoyable! Everything at Palazzo Massaini was wonderful including the staff and Chef Paulo and team were also great - amazing food and learned alot!

It would have been nice to know that the road conditions were more moderate than easy.

ride with Gps needs a bit more explanation on starting and restarting.

The biggest recommendation I would have is to make sure the GPS routes are updated—for our stay in Montalcino, it took us to the wrong hotel, which added on extra time trying to find the correct one. In addition, it was confusing sometimes when certain stops were highlighted on the route, but then the directions didn't take us there. For instance, most of us missed the abbey on the way from Pienza to Montalcino, because the GPS went right past it and there were no clear signs. If you highlight a point of interest as a stop, it would be helpful if you provided directions to those places on the GPS. Some you did, and some you didn't, so it was inconsistent. In general, we had a great time and really appreciated all of the work you did and support you offered. We would definitely use Cicloposse again!

Maybe have an alternative option to go to a town if we do not bike the whole time. Along those lines, it would be nice to have a spa option if we choose not to ride on a day.

Make sure that the guide book reflects the tour. There were many things listed in that red covered booklet that we never did. It would have been helpful to have the book reflect what we were actually doing each day. There was confusion among the group.

The bus at from Chiusi to Montepulciano is a small white one which drops you off at the front of the station. However the bus from there to Pienza is a large blue which does from the back of the station - this would be helpful to have in your notes.

Some quick intervention along the road when there is a technical problem is surely helpful.

more communication prior. Everyone uses electrolytes now. If you are not providing, pls let people know to pack their own. Build up web site with information/ history of areas we travel to. Holding a Zoom call prior to discuss logistics and answer questions can be helpful if possible.

Overall the whole experience was fantastic, I would highly recommend your company to anyone

Include bike price in total cost

This trip was wonderful.

no - it was first class

Maybe improve the staying place

We totally enjoyed our Cicloposse bike tour.

We were in a large group so things might have been extra challenging but just making sure everyone has what they need. One minute I had a tire repair kit but at some point it was taken out of my carrier bag and placed with someone else during the fittings. I also didn't have my own lock but we worked it out.

Some of the biking and cooking lesson pairings made for days that were too long. For example, after a 50 mile ride in the heat of the day, no one had the energy to stand in the kitchen for two hours and make pasta, even though it was fun and we learned a lot. It was very

hot in the kitchen and after being hot all day long in the sun For health reasons we should have been in air-conditioning at that point of the day. The rides were definitely in the intermediate to advanced and not beginner. The schedule was very tight, allowing less time for enjoying the property, relaxing by the pool, or resting up for the evening. I had a wonderful time nonetheless and enjoyed it very much!

Improve wifi

I do think the electric bikes were a little under powered compared to some I've experienced before. But I did get exercise and loves the routes. Tomasso and Panis were outstanding in every way and I thoroughly enjoyed them. Love how the company is a family business and I hope to come back and cycle in Tuscany with Cicloposse.

Water refill stops on course maps (Ride with GPS files)

Not really, you did excellent.

e trip review. My wife and I had a terrific experience. I can not compliment enough the professional friendly service we received. The side trip experiences we very nice. The cooking classes and oil and wine tours were very nice. The providers made us feel like family. Truly nice people. The hotels were very nice also. The last two nights hotel needs deserves some criticism. Their entrance to their facility is not safe for their guests. The walk area is layered with loose stones and the steps are treacherous. Their food was the lowest ranked of our meals. (And beds were way too soft). The trip was not exactly what was expected from the brochure received. You stated "Difficulty: easy going to moderate – van support all day long". The van was available but I would not classify this as easy to moderate. I personally put the bike in the van and rode in the van one afternoon because I was so tired of difficult riding. The afternoon of the last day we were given the option of riding back to the hotel after lunch or riding in the van. Two people opted out of the ride that day. Of the 6 who did this trip 5 chose to ride in the van! You stated "Meet the local "Centenarians". I don't remember meeting anyone of these special people. You stated " Discover the secrets behind our exquisite fresh fish and meats, prepared with a finesse that embodies the island's culinary heritage" I do not remember eating any fish. You stated " Difficulty: easy going to moderate – van support all day long". Van support was excellent and readily available. Easy to moderate it was not. This was a very hilly route. With difficult rides going up and challenging rides coming down. "How difficult is the cycling? Our daily itinerary of cycling is designed to be a vacation, not a race! Our pace is relaxed in order to enjoy the scenery which is gently rolling terrain and some hills. ". I did not feel like the bike riding part was a vacation. Too demanding of a ride, having to be almost constantly on guard for car, and never stopping to just enjoy the views. There were so many great observation spots that we should have stopped at and soaked in the beauty of Sardinia.

57 hours misrepresented the trip as easy vs moderate to strenuous

Enjoyed the whole experience and would certainly book again in a different region.

Coffee/Cream available in our rooms or in kitchen at an earlier hour than 8am. A Cicloposse group bike jersey would be nice as part of our welcome gear. Other SWAG for sale would be nice- T-shirts, shorts, socks, bike rain gear- all would be guaranteed sales to guests!! We all spoke about it.

I really appreciated the self guided aspect of the tour.
